

SAFER. STRONGER. CLEANER.

ONE PRODUCT, MULTIPLE USES

Many Benefits

The build-up of fats, oils and grease (FOG) on cooking surfaces, countertops, floors, and exhaust hoods is not only a significant fire hazard, but can also result in slips and falls, foul odors, disease transmission, and excessive maintenance costs.

- Uncle Oscar's F.O.G Control is a powerful degreaser that rapidly breaks apart the toughest fat, oil, and grease molecules, eliminating FOG buildup the foul odors that go along with it.
- Our proprietary infusion of plant-extracted proteins and peptides diminishes the corrosive capacity of our cleaner compared to other high-pH products and increases environmental degradation, providing users with a safe and green solution.
- water-based
- biodegradable
- non-toxic
- non-carcinogenic

With these added benefits and values, Uncle Oscar's is the best option for grease removal from all restaurant and food processing surfaces, from hoods to countertops to floors. Whether it is the cleaning power or the peace of mind that comes from equipping your workforce with a safer chemical, you can depend on Uncle Oscar's to bring you the best cleaning chemicals with the least environmental impact.
